Navigating the future

CONTENTS

01 Company Profile

02 product

- Austenitic stainless steel pipes
- Super austenitic stainless steel pipes
- Duplex stainless steel pipes
- Stainless steel BUTT-WELDING fittings
- Stainless steel flanges

03 Workshop and Equipment

- Stainless steel pipe workshop
- Stainless steel fitting workshop
- Stainless steel flange workshop
- Storage workshop

Hunan Poline Engineering Steel Co., LTD., - Poline Steel, with integrity, enterprising, pragmatic, win-win service concept, is aimed to create a world-class special steel century enterprise. With the spirit of creating the unique value for users, it has quickly become an outstanding enterprise in China’s special steel industry.

Poline Steel operates in the field of Stainless steel products since 2000 and now is one of the biggest exporters and manufacturer in the Chinese market with ISO9001, ISO14001, OHSAS18001, PED, DNV, ABS, SABIC, ARAMCO certificates. We integrate the research & development and production of stainless steel pipe and related pipe fittings. We have stable supplier chain in Wuxi and Shanghai, Jiangsu Province and mainly produce nickel alloy materials and stainless steel pipes. Which are widely used for industries of petroleum, chemical engineering, nuclear power, paper making, marine vessel metallurgy and new energy sources etc.

With "customer satisfaction, attention to detail" as the quality concept, we comprehensively carry out the international standard ISO9001 quality management and persist in providing lean products and lean services to enhance the competitiveness and creativity of the products. Poline Steel deeply cooperated with SGS, BVQI, CCIC, LRQA and other internationally and nationally renowned testing institutions. Our product quality is on high level in international market. Many products passed ISO9000, CE quality system certificates. At present, We have exported over 30 countries in the world, and gain good reputation during our cooperation. Hope we have the chance to start our first cooperation.
Austenitic stainless steel pipes
- Properties:
  - Excellent corrosion resistance
  - Excellent cold and hot workability
  - Good molding and toughness
  - Best comprehensive performance
  - Wide scope of application

Super austenitic stainless steel pipes
- Grades: 904L
- Properties:
  - In harsh corrosive environment
  - Excellent mechanical properties, high yield strength
  - Good machinability

Duplex stainless steel pipes
- Grades: S31803, S32750 etc.
- Properties:
  - Anti-corrosion, pitting corrosion, crevice corrosion
  - Easy to weld
  - Good mechanical properties
  - High cost performance and long service cycle.
Stainless steel BUTT-WELDING fittings

Elbows, Tees,Reducers, Caps, Bends
Stub ends, Nipples, Coupling, Union etc.

Size:
1/2” to 24” Seamless type SCH SS to SCH XXS
2” to 48” Welded type SCH SS to SCH XXS

Standard:
ASME B16.9, EN 10253-3/4, DIN, JIS, GOST, ASTM A403, ASTM A815
MSS SP97, MSS SP43

Material:
SS304/304L, 316/316L/Ti, 321/H, 310S, S31803, S32750, 904L etc.

Stainless steel flanges

Plate, Slip on, Weld Neck, Blind, Spectacle, Socket, Threaded, Loose

Size Range:
DN15 - DN1500 (1/2” - 60”)

Pressure rating:
150lbs - 2500lbs

Standard:

Material:
SS304/304L, 316/316L/Ti, 321/H, 310S, S31803, S32750, 904L etc.
Workshop and Equipment

We carry out precision production process to conduct effective whole-process control over quality from the raw material to finished production control and TPI. Make sure every product to be of high quality.

Stainless steel flange workshop

Field AND APPLICATION

Poline Steel products are widely applied in such fields as petrochemical protection, aviation, paper factory, food, ship, boiler, medicine etc. Based on the principle of sincerity first and mutual benefit, we have sold our products into Mid-East, Nepal, Russia, Poland, South Asia. We believe in providing first class quality and one-stop service to create our owned Poline Brand in the worldwide.
